lead a writing revolution in your classroom with the proven hochman method building on the success of the original best seller this new edition of the writing revolution adds valuable guidance for teachers seeking a way to bring their students writing ability up to rigorous state standards as thousands of educators have already discovered the writing revolution provides the road map they need clearly explaining how to incorporate the hochman method into their instruction no matter what subject or grade they re teaching and regardless of the ability level of their students the new edition provides a reorganized sequence of activities and even more student facing examples making it easier than ever to bring the method to your classroom the writing revolution isn t a separate curriculum or program teachers need to juggle rather it is a method providing strategies and activities that teachers can adapt to their preexisting curriculum and weave into their content instruction by focusing on specific techniques that match their students needs and providing them with targeted feedback the writing revolution can turn weak writers into strong and confident communicators in addition the method can identify misconceptions and gaps in knowledge boost reading comprehension and learning improve organizational skills enrich oral language develop analytical abilities the writing revolution takes the mystery out of teaching students to write well

the essays in writing respond to contemporary debates over the proper role of the internet in higher education steering a middle course between polarized attitudes that often dominate the conversation the authors argue for the wise integration of web tools into what the liberal arts does best writing across the curriculum all academic disciplines value clear and compelling prose whether that prose

comes in the shape of a persuasive essay scientific report or creative expression the act of writing visually demonstrates how we think in original and critical ways and in ways that are deeper than those that can be taught or assessed by a computer furthermore learning to write well requires engaged readers who encourage and challenge us to revise our muddled first drafts and craft more distinctive and informed points of view indeed a new generation of web based tools for authoring annotating editing and publishing can dramatically enrich the writing process but doing so requires liberal arts educators to rethink why and how we teach this skill and to question those who blindly call for embracing or rejecting technology

this book combines elementary theory from computer science with real world challenges in global geodetic observation based on examples from the geodetic observatory wettzell germany it starts with a step by step introduction to developing stable and safe scientific software to run successful software projects the use of software toolboxes is another essential aspect that leads to the application of generative programming an example is a generative network middleware that simplifies communication one of the book s main focuses is on explaining a potential strategy involving autonomous production cells for space geodetic techniques the complete software design of a satellite laser ranging system is taken as an example such automated systems are then combined for global interaction using secure communication tunnels for remote access the network of radio telescopes is used as a reference combined observatories form coordinated multi agent systems and offer solutions for operational aspects of the global geodetic observing system ggos with regard to industry 4 0

in the late 1970s a jeff koons art exhibit featured mounted vacuum cleaners lit by fluorescent tube lighting and identified by their product names new hoover quik broom new hoover celebrity iv raymond carver published short stories such as are these actual miles that cataloged the furniture portable air conditioners and children s bicycles in a family home some years later the garbage barge mobro 4000 turned into an international scandal as it spent months at sea unable to dump its trash as it was refused by port after port tim jelfs s the argument about things in the 1980s considers all this and more in a broad study of the literature and culture of the long 1980s it contributes to of the moment scholarly debate about material culture high finance and ecological degradation shedding new light on the complex relationship between neoliberalism and cultural life

matthias smalbrugge compares modern images to plays without a script while they appear to refer to a deeper identity or reality it is ultimately the image itself that truly matters he argues that our modern society of images is the product of a destructive tendency in the christian notion of the image

in general and augustine of hippo s in particular this insight enables him to decode our current scripts of image as we live in an increasingly visual culture we are constantly confronted with images that seem to exist without a deeper identity or reality but did this referential character really get lost over time smalbrugge first explores the roots of the modern image by analysing imagery what it represents and its moral state within the framework of platonic philosophy he then moves to the augustinian heritage in particular the soliloquies the confessions and the trinity where he finds valuable insights into images and memory he explores within the trinitarian framework the crossroads of a theology of grace and a theology based on neoplatonic views smalbrugge ultimately answers two questions what happened to the referential character of the image and can it be recovered

explore the foundations of and latest developments in industrial organizational psychology from employee and employer perspectives in the newly revised eighth edition of industrial and organizational psychology research and practice distinguished researcher and psychologist paul e spector delivers a robust and up to date review of the industrial organizational field that covers the latest research on contemporary trends and traditional areas of the subject the author draws on four decades of research and teaching experience balancing employee and organizational perspectives by covering issues relating to both employee well being and productivity the new edition places a special focus on how technology is affecting a variety of issues in industrial organizational psychology especially employee selection and training the growing trend of gamification as it relates to employee assessment motivation and training is discussed each chapter includes a special feature that links to the author s weekly blog expanding on the topics explained within the book the book includes an instructor guide for using the blog in class the book also offers current and balanced discussions of the most pertinent issues in industrial organizational psychology today a special focus on the use of technology by employers to impact employee selection and training practical discussions of gamification as a tool in employee assessment motivation and training special features in each chapter that link back to the author s popular weekly blog on a variety of industrial organizational issues perfect for undergraduate and graduate students studying industrial organizational psychology industrial and organizational psychology research and practice will also earn a place in the libraries of business students with an interest in organizational psychology seeking an accessible overview of the industrial organizational field

this research based monograph presents an introduction to the concept of film induced tourism building on the work of the seminal first edition many new case studies exploring the relationship between film and tv and tourism have been added and existing cases have been updated the book incorporates studies on film studio theme parks the impact of film induced tourism on communities and the effect of film on tourists behaviour it introduces new content including film induced tourism in non western cultures movie tours and contents tourism the book is an essential resource for postgraduate students and researchers in the fields of tourism film and media studies
